Paweł Prusko Portfolio

Senior User & Data Experience Designer

Tel: 693 600 920 | E-mail: pruskopawel@gmail.com | Localization: Warsaw

Senior UX Designer and Data Experience Architect with 7+ years of expertise in turning complex enterprise data into intuitive, high-impact visual interfaces. Specialized in Data Visualization, Business Intelligence systems, and Explainable UX. Proven track record of bridging the gap between data engineering and user cognition-reducing cognitive friction, validating data logic pre-engineering, and designing scalable dashboard architectures for global clients (Pharma, FinTech, Heavy Industry).

Commercial Data Experience Projects

Lyondell
Real-Time Monitoring Dashboards for Heavy Industry

Organizations Internal Data Experience Initiatives

STX Next

- **Cross-Functional Governance & Standards:** Establishing global, cross-functional guidelines to standardize the workflow between designers, developers, and analysts across all data-oriented projects.
- **Enterprise Data Design Systems:** Crafting exclusive user flows and highly tailored data visualization layouts for corporate reporting systems, while simultaneously establishing core structural components of the internal Design System to ensure scalability and visual excellence.

Link to the Platform Materials

Astek (Pharma & Biotechnology)

- **Design System:** creating deeply customized educational materials and design (Figma) libraries fully devoted to the data visualization.
- **Tableau:** in collaboration with Tableau product owner establishing official Tableau dashboard template and the set of chart-oriented color palettes available directly from the Tableau platform for BI developers.
- **Brand Team:** Establishing color palettes dedicated strictly to the data visualization, consistent with the Brand look & feel.

Personal Worldwide Educational and Mentoring Programs

Data Alchemist Blog

- On my blog, Data Alchemist, I share deep explorations into Data Experience Design, cognitive psychology, and analytical architecture. Through dedicated sections like the Data Alchemist Journal, Data Architecture Scrolls, and Data Psychology Notes, the blog provides technical and architectural reflections focused on eliminating cognitive noise, protecting human focus, and building high-resonance, human-centered data products.

Dataviz AI Advocate

- Your personal Data Experience Design Assistant, unifying five specialized roles into one seamless strategic interface. Engineered to accelerate the development of data-oriented products through rapid research, general audits, and end-to-end collaborative workflows. From deep-dive data analysis and compelling storytelling to high-fidelity visualization design and interactive rapid prototypes, it guides you through every phase, validating final solutions like dashboards to ensure seamless end-user usability, strategic clarity, and actionable impact.
